II. POLICY STATEMENT:

Some offenders have a greater likelihood of engaging in behaviors and activities that present a serious threat to the safety and security of the Department. - B. Provide a safe correctional environment for staff and offenders in Department facilities.
- C. To protect the public and communities from predatory high risk offenders.

In addition to identifying and monitoring these offenders, the Department must be able to track offenders with a significant likelihood of committing high risk behavior so that staff can be made aware of their presence in the offender population and in what types of behaviors these offenders may participate. In order to track these offenders, the Department shall develop and implement a computer-based tracking
